

SALES DESCRIPTION

Steam condensing unit avoids steam without having to install an extraction hood.

The steam condensing unit is delivered installed in Sammic rack conveyor dishwashers.

- ✓ To avoid steam without having to install an extraction hood.
- ✓ Its design allows the increase of water inlet temperature and sends it to the rinsing circuit.
- ✓ This function allows to save energy and recover a big percentage of water destined for steam condensation.
- ✓ 0.75 kW fan in vertical position and motor with double retainer prevents water leakage into the motor.
- ✓ Removable filter to avoid fat leakage.
